Kevin Funk

SUMMARY

Frontend-leaning Full-Stack Engineer with 13 years of experience building scalable web applications. Proven track record of navigating hyper-growth, including scaling engineering teams from 10 to 40 members and facilitating 30x increases in clinical volume. Specialized in modernizing legacy monoliths into independent services to accelerate release cycles and eliminate deployment bottlenecks

Remote positions only. I also love meeting my teammates in-person, so I'm more than happy to fly to meet up.

PRIMARY TECH SKILLS

- Typescript, NodeJS, Vite/Webpack
- React, Redux, NextJS
- ExpressJS, Basic PSQL

ADDITIONAL TECH SKILLS

- AngularJS
- SCSS, Bootstrap
- Jekyll
- Python, Django, Flask

WORK EXPERIENCE

Staff Software Engineer << Senior Software Engineer – Hazel Health *Earth* *2020 – Present*

- **Scale & Growth:** Orchestrated the expansion of the engineering team from 10 to 40 members and company growth from ~50 to ~350 employees
- **Talent Acquisition:** Personally designed front-end interview challenges to ensure technical competency and high hiring standards during rapid growth phases
- **Technical Leadership:** Guided a cross-functional team of 9 teammates as the Technical Lead, orchestrating technical strategies, adding domain knowledge, and providing mentorship within an Agile framework
- **Clinical Impact:** Expanded B2B footprint from 56k to 426k partner school districts, driving a 30x increase in clinical visits, from 21k to 667k
- **Quality & Efficiency:** Architected and implemented an org-wide bug triage process, managed web-client deployments, and scaled team capacity through structured training and scheduling
- **Revenue Generation:** Developed numerous internal and customer-facing tools that increased the number of mental health visits eligible for Fee-for-Service billing by 3x
- **Architecture Modernization:** Decoupled a mission-critical monolith into independent web services, eliminating deployment bottlenecks and enabling on-demand, frequent releases without cross-service dependencies
- **Development:** Developed a suite of web applications for diverse users—patients (visit reminders, chat, discharge notes, etc), medical providers (EHR tooling, chat, scheduling, etc), and school admins (data imports, scheduling, etc)

Senior Software Engineer/Supporting Designer – EasyPost *San Francisco, CA* *2015 – 2020*

- Spearheaded company growth from 12 to 300+ employees, contributing to various transformations
- Led the development and management of front-end services, meeting the needs of 350k+ daily visitors
- Worked with many teams on API design to meet both backend and frontend integration needs
- Managed an internal npm package, providing SCSS styles, assets, and reusable React components to all teams
- Incrementally refactored ES5 backbone.js app to an ES2018 react/redux-saga app, over the course of a year
- Managed style, content, and UX for all marketing, API docs, and knowledgebase pages for 4+ years

Software Engineer << Web Developer << Designer << Courier – eBay *San Francisco, CA* *2012 – 2014*

- Within two years, climbed the ranks within from delivery driver, to web designer, to software engineer
- Developed a RESTful web API to enable small and medium businesses to manage orders with local-delivery options. Built an AngularJS/Bootstrap web app to provide an interface to the API
- Created an internal dashboard (web browser tool) for an operations team to manage a fleet of couriers. Stack: python, flask, psql, jQuery, bootstrap

Software Engineer (Intern) – OpenDNS *San Francisco, CA* *2014*

- Designed and built an open-source public API for accessing domain info over TCP/HTTPS instead of UDP

Photographer – Freelance *San Francisco & Napa Valley, CA* *2008 – 2013*

Web/Graphic Designer – Freelance *San Francisco & Napa Valley, CA* *2011 – 2013*

Airborne Battle Management Systems – US Air Force *2004 – 2008*

EDUCATION

M.S., Computer Science/Web Science
University of San Francisco, San Francisco, CA (2014)

B.S., Visual Communication Design
San Francisco State University, CA (2011)

LAMP Fundamentals Certificate
City College of San Francisco, CA (2013)

A.A.S., Air and Space Operations Technology
Community College of the Air Force (2008)
